Summary

I am a tech-savvy individual who is passionate about consistently advancing my knowledge and skills. I am seeking an opportunity to showcase my abilities in a growing company looking to leverage on data or to make data-driven decisions. I am determined to succeed (i.e: to find answers), able to work independently as well as in a team, and responds quickly to the changing needs of the organization.

Qualifications:

- Ability to provide solutions through the synthesis and analysis of data.
- Experienced in MS Power BI, Power query, Data warehousing and Data modelling.
- Strong understanding of Python *(pandas, numpy, seaborn and matplotlib),* SQL and agile methodology.
- Ability to turn raw data into insights and tell stories using data visualization.
- Experienced in web-scraping *(data mining using beautifulsoup).*

Experience:

Healthstation limited / Field technical officer (intern)

December 2021 - Present, Nigeria.

- o I was part of the team that maintained patient data.
- o I understood and made use of the company's complex HMIS (health management information system) SaaS platform.
- o I managed data, including data cleaning, patient details editing and formatting.
- o I assisted the doctors, nurses, cashiers and medical records personnel in the understanding and usage of the HMIS platform.

Bishop's Enterprise / Data entry associate and proof-reader

August 2020 - November 2020, Nigeria.

- o Involves data entry, text formatting and proofreading.

Youtube Channel / Content creator

September 2020 – August 2021, Nigeria

- o Involves creation of mini-biographies and mini-autobiographies in video form.

Tools:

- Python
- Pandas
- SQL
- Beutifulsoup
- Jupyter notebook

- Power BI
- MS excel
- Matplotlib
- Numpy

Education:

Federal University Of Technology Owerri, Imo state, Nigeria / B.tech Statistics

January 2018 – Present (penultimate year), Nigeria.

Certifications:

- Data analysis with python. *Verify here (https://www.freecodecamp.org/certification/mrarmsty/data-analysis-with-python-v7)*
- Data analysis with python: zero to pandas. *Verify here (https://jovian.ai/certificate/MFQTOMRTHA)*
